Photos Made Perfect
*Restoring Family History...
 One Photo At A Time...*

We can **digitally restore** your photos **without a negative** and **without damage** to your original. First we scan it, restore it and produce a copy onto **archival quality paper!** no inkjet copies. We restore any photo, painting or genealogical document and **specialize in daguerreotypes and tintypes.** If you do

See more of our work online. We offer information of interest to genealogist such as “**Photo Dating**”, the “**History of Photography**” “**Guest Speaking**” and “**Antique Photo Albums**”. We offer photo ideas for “**Custom Gifs**” and “**Decorating with Photographs**” and “**Scrapbook Inspiration**”. In 2007 we began developing vintage film and slide transparencies. As we learn we keep adding so keep on coming back and share with your friends.

We need to see the photo to estimate it. However, you could get a **general idea** by looking at these averages and deciding which price your photo falls under.

		
\$40-60	\$70-100	\$150.00 -up

have a negative and it is so old you can't find someone to develop it? We can.

Digital restoration is a combination of techniques using image editing software, **to remove spots, tears, fold lines, water damage, other defects and overall enhance faded, yellowed** photos you thought there was no hope for. **(Not to the original.)**

We restore color problems such as turning a **black and white into color** or **bringing back the color of a faded photo.** Color can be applied to the **whole photo or localized areas.** See our website for examples.

Special Effects are the addition of, or removal of objects or people, or an artistic effect to improve your photo.

We can **enlarge** up to 20 x 30 or **reduce** large portraits to fit scrapbooks.

Add the restoration price + the size and the quantities of the prints you chose below + CA tax, if you live in California.

Standard Print Sizes and others available
